

FREE TO MEN! A BOOK FULL OF FACTS ABOUT

Dr. McLaughlin's Electric Belt for Weak Men

I KNOW THAT NO MAN REMAINS A WEAKLING BECAUSE he wants to; I am sure that you want to overcome every indication of early decay that has shown itself on you. I don't think the man lives who would not like to feel as big and strong as a Sandow, and I know that if you have a reasonable foundation to build upon I can make you a bigger man than you ever hoped to be. I want you to know that, you who can't believe --, and I want you -- have my book in which I describe how I learned that manly strength was only electricity and how I learned to restore it; also I want to tell you the names of some men who will tell you that when they came to me they were physical wrecks and are now among the finest specimens of physical manhood.

A HAPPY MAN

Dear Sir: Having used your famous electric belt for thirty days, I have received the greatest benefit that a man could gain—that is, health and strength. The tired, despondent feeling has gone. I feel the beginning of a new life, and am ever your debtor.

P. O. Box 482, Tucson, Arizona. W. E. CLARK.

I want you to read this book and learn the truth about my arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells, varicose or any ailment of that kind that weakens you, it would assure you future happiness if you would look into this method of mine. Don't delay it, your best days are slipping by. If you want this book I send it closely sealed free, if you send this ad. Call for free consultation.

Office Hours—8 A. M. to 8 P. M.; Sundays, 10 to 1.

BY AUTHORITY

EXECUTIVE NOTICE.

FIRE CLAIM BONDS OF THE TERRITORY OF HAWAII.

By direction of the Governor sealed bids will be received at the office of the Secretary of the Territory until twelve (12) o'clock noon, on Monday, April 20, 1903, for Three Hundred and Twenty-six Thousand (\$326,000.00) Dollars of Territorial Coupon Bonds, in denomination of One Thousand Dollars each, authorized by an Act of Congress.

DESCRIPTION.

These Bonds are to be dated May 1, 1903, and may be redeemed by the Territory of Hawaii after the first day of May, 1908, and are payable on or before the first day of May, 1918, bearing interest at the rate of four (4) per cent per annum, payable semi-annually on the first day of May and November of each year, both principal and interest being payable in United States Gold Coin of the present standard of weight and fineness, at Wells, Fargo & Co.'s Bank in the City of New York. These Bonds are signed by Territorial officials and the Secretary of the Interior.

AUTHORIZATION.

These Bonds are to be issued in pursuance of an Act of Congress, approved January 26, 1903, entitled: "An Act to pay in part judgments rendered under an act of the legislative assembly of the Territory of Hawaii for property destroyed in suppressing the bubonic plague in said Territory in eighteen hundred and ninety-nine and nineteen hundred, and authorizing the Territory of Hawaii to issue bonds for the payment of the remaining claims," by which they are EXEMPT FROM ANY AND ALL TAXES, and the payment thereof constitutes a charge upon the revenues of the Territory of Hawaii.

SECURITY.

The average annual revenue of the Territory for the past two years has been\$ 2,420,128 95
The present assessed valuation of the taxable property of the Territory is 123,000,539 38
Present actual debt, not including above proposed new issue, is 931,970 31

RESTRICTIONS.

Tenders will be received for the whole issue, or any part thereof. Each bid must be accompanied by a certified check, payable to the order of the Governor of the Territory, for at least ten (10) per cent. of the aggregate amount of the amount bid upon, the amount of said check to be forfeited to the Territory of Hawaii in the event of failure on the part of the bidder, after notification of acceptance of the proposal, to carry into effect the terms thereof. Bidders whose proposals are accepted will be required to pay ten (10) per cent in U. S. Gold Coin upon the amount of their bids as soon as they receive notice of acceptance; and to pay in like coin twenty (20) per cent at the expiration of each ten days thereafter, until the whole is paid. But they may, at their option, pay the entire amount of their bid when notified of acceptance, or at any time when an installment is payable. The price the bidder proposes to pay, the place where he desires the bonds shall be delivered, and the office—whether that of the Treasurer of the Territory of Hawaii, at Honolulu, or Wells, Fargo & Co.'s Bank, New York City—where it will be most convenient for the bidder to deposit the amounts of his payments, must be specifically stated in the proposal. No offer for the purchase of the bonds for less than their face value will be considered.

RIGHTS RESERVED.

The right to reject any and all bids, to waive technical defects, and to accept any part of any bid and reject the other part is hereby expressly reserved to the Governor of the Territory of Hawaii.

HOW ADDRESSED.

All proposals must be addressed to the Governor of the Territory of Hawaii, and must be distinctly marked "Proposals for the Purchase of Four Per Cent Bonds." Blank forms for proposals and copies of the Act of Congress and the Rules and Regulations published by the Secretary of the Interior may be had upon application.

ALEX. G. HAWES, JR.,

Secretary to the Governor.

Executive Chamber, Territory of Hawaii, March 19th, 1903.

THE SPRINGS OF PAUOA

Their Character Is Described by Booth.

The Measurements of the Supply by Experts.

Dr. Shorey's Analysis of the Water and the Recommendation of Dr. C. B. Wood.

Honolulu, March 25, 1903.

Editor Advertiser: In your paper of yesterday morning appeared an article signed "Citizen and Taxpayer," treating of the water supply of the Pauoa springs and while an article to which a man is ashamed to sign his own name carries no weight with the thinking reader, there are some who might be misled thereby and in refutation of his figures it is only necessary to publish the report of the engineers on the supply and of the Government Chemist on the quality. These reports are attached hereto and will be recognized as authentic.

C. W. BOOTH.

MEASUREMENT OF WATER IN PAUOA VALLEY.

Honolulu, H. T., Nov. 15th, 1902.

To Whom It May Concern:

Measurement taken at the mouth of two perpetual streams, the source of which are two springs at an elevation of between 550 and 600 feet, situated in Pauoa Valley, about two miles mauka of the terminus of the Pacific Heights Railroad. These springs are not affected by a lack of rainfall, give an output of 859,920 gallons in 24 hours, and by developing could be increased by conservative estimate to ten times this amount.

Measurement taken from a stream at an elevation of 250 feet in the same valley, but lower down, the source of which stream is several small springs, gives an output of 253,700 gallons per 24 hours.

These springs are all located in Pauoa Valley, which is a natural water shed and would be a valuable reservoir site for the Government.

Very truly,
GRIMWOOD, RICHARDSON & HOLLWAY, LTD.,
Per Richardson.

EXTRACT FROM ANALYSIS OF WATER FROM PAUOA VALLEY. SAMPLES TAKEN FEBRUARY 23, 1903, BY E. C. SHOREY—ANALYSIS MADE FOR MR. C. W. BOOTH.

The Nuuanu water while it contains less total solids than the waters from Pauoa, contains a large amount of albuminoid ammonia, and this in connection with the presence of nitrites indicates rather serious organic contamination.

It should be said in this connection that water from Nuuanu valley varies greatly according to the amount of rainfall, surface wash, etc.

The samples from Beretania street and Palama both contain a larger amount of solid matter in solution than do the waters from Pauoa, and in each case more than one-half is made up of chlorides.

The interpretation of the analysis of the two samples from Pauoa may be stated as follows:

1. The waters are organically as pure as it is possible for natural water to be.
2. They contain less mineral matter than the artesian waters here, and this mineral matter is less objectionable in quality than that usually present in artesian water.

3. The difference between the two samples is slight and is such as can be accounted for by difference in location and surroundings of the springs.

On comparison of these two samples of water with the two present sources of supply for the city, viz: artesian water and storage reservoirs of rain water, there is absolutely no question that so far as quality goes the Pauoa water examined is much superior to either.

It is superior to artesian water because the mineral matter is less and is made up largely of carbonates in place of the more objectionable chlorides and sulphates common in artesian water.

It is superior to Nuuanu Valley or any storage water because free from organic impurities. It is true that filtration of Nuuanu water will greatly improve it and the value of a filtration plant for that water so long as it is used cannot be overestimated; but it is much better to use if possible a water that does not require filtering. Wa-

ter filtration will render fit for use a water which could not otherwise be used, but such filtration does not remove absolutely all germs, e. g. typhoid, and a filtered surface water can never be absolutely safe as regards water carried diseases, while a spring water with the source properly protected is so.

The questions of amount of water, availability, elevation of source, character of surroundings of springs are questions for the engineer rather than the chemist.

(Signed) EDMUND C. SHOREY,
Chemist Hawaii Territory.
Honolulu, Feb. 26th, 1903.

Mr. C. W. Booth, Honolulu.

Honolulu, T. H., March 23rd, 1903.

Mr. C. W. Booth.

Dear Sir: In response to your request for an opinion regarding the water from your springs in Pauoa Valley, allow me to state that after personal inspection of the springs and their surroundings, an examination of specimens of water taken from them and more especially after reading the report of Mr. E. C. Shorey and his analysis of the water, I take pleasure in recommending the water as an unusually pure and wholesome natural water for drinking or other domestic purposes.

I am yours,
C. B. WOOD, M. D.

BAD COMPANY

Not a Home in Honolulu Where This Visitor Is Welcome.

The most unwelcome visitor in Honolulu.

Is any itching skin disease.

Itching piles is known in nearly every household.

And eczema is no stranger.

They're both bad company.

They come early—stay late.

We always say "good riddance"

when they go.

Know how to keep them away? Use Doan's Ointment.

Doan's Ointment cures piles and all itchiners of the skin.

A Victoria, Australia man endorses our claims.

Mr. William Preston has been a resident of Victoria for over half a century and therefore will be known to many of our readers. Mr. Preston is at present residing at No. 63 Argyle St., St. Kilda. He says: "For some considerable time I have been troubled with Eczema on my legs. The irritation at times was very great especially at night, and it caused me considerable annoyance. I obtained a pot of Doan's Ointment and I must say that it allayed the irritation almost immediately. Doan's Ointment is a good remedy and I can highly recommend it for Eczema."

Doan's Ointment is splendid in all diseases of the skin, eczema, piles, hives, insect bites, sores, chilblains, etc. It is perfectly safe and very effective.

Doan's Ointment is sold by all chemists and storekeepers at 50 cents per box (six boxes \$2.50) or will be mailed on receipt of price by the Hollister Drug Co., Agents for the Hawaiian Islands.

SYMPATHY FOR LATE GEO. HONS

The Supreme Court paid its respects yesterday to the memory of the late George Hons, of Wailuku, Maui. The following resolution offered by W. O. Smith was unanimously adopted:

"Whereas, it has pleased Almighty God to remove by death George Hons, Esquire, a member of the bar of this court,

"Resolved, that deeply deploring our loss we desire to place on record our kindly remembrance of our departed friend and brother, and to tender to the family of the deceased our sincere sympathy, and that the court be moved to enter these resolutions upon the records of the court."

HERPICIDE

The Latest Scientific Discovery

is based on the principle, "Destroy the cause, you remove the effect."

Herpicide kills the germs that cause dandruff by digging up the scalp as they burrow their pestiferous way to the hair root, where they finally destroy the hair. Without dandruff your hair will grow luxuriantly.

Newbro's Herpicide

stops dandruff and falling hair, and starts hair growing within 10 days. One bottle will convince you of this.
